# The Brooklands Aircraft Factory & Race Track Revival Project

Brooklands Museum in Weybridge is a site which is dedicated to maintaining the historic spirit of its past where buildings, vehicles, historic aeroplanes and other exhibits are displayed and used for the enjoyment of the visitors.

CBA were commissioned to develop Landscape proposals for the setting of a relocated Grade II Listed Bellman Hangar and new Flight Shed Building. The scheme also included safe external viewing areas to the restored race track, selective vegetation removal to open key views, external education areas and proposals for the stabilisation of Members' Hill escarpment and original profiling of the embankment.
