# Broadwater Farm Learning Campus, Haringey, London

2017 RIBA MacEwen Award Shortlisted  
2016 Haringey Design Awards Overall Winner

This unique project is part of Haringey's primary and pre-school programme. The project brings together on one campus three previously separate schools, one Primary and two Special Schools, combining them into one inclusive learning campus. CBA's landscape design included the creation of dedicated external teaching spaces, where the emphasis is on sustainability as a learning resource, a soft play central community area, outdoor amphitheatre, arrivals area, accessible wildlife pond, sensory planting, accessible horticultural area, sand and water play and a floodlit MUGA. The scheme's development relied heavily upon a comprehensive consultation process with both the school and the local community. The buildings and landscape were delivered in 3 stages. The campus was completed in 2014.
